

## PRESSALIT® care

**Pressalit Care** manufactures accessible bathroom and kitchen products. Their solutions meet both user and regulatory requirements, whilst providing return on investment, with over 35 years' experience developing products and best practice layouts for markets worldwide.

### CPD Seminar Title:

### Best Practice in Accessible Bathroom Design Seminar details

- ❖ The objective of the seminar is to increase understanding of both the independent and dependent user needs.
- ❖ Appropriate layout and product solutions are suggested for a variety of applications with consideration of Part M of the building regulations, BS 8300:2009, including provision of Changing Places facilities, and Building Bulletin 102 covering recommendations for hygiene rooms in schools
- ❖ We examine spatial requirements for using the toilet, basin, and shower individually and as integrated functions, within a well-designed room.
- ❖ We aim to give a general awareness within two topics of the RIBA core curriculum: 7:Designing and building it and 10:Access for all
- ❖ Design tools demonstrated within the context of the seminar include BS 8300 layout disc.

### Seminar Duration

- ❖ 50-60

### Resources Included

- ❖ Technical literature
- ❖ CD-ROM
- ❖ CPD Certificate

### Areas Covered

- ❖ UK & Republic of Ireland.
