

Kiva Height-adjustable Bath

The Kiva bath has been designed and built without compromise, with generous internal and external dimensions. The Kiva is one of the first capacious baths on the market that looks and feels like a true classic bath and has been specifically designed to blend into any bathroom environment. The Kiva bath comes with a range of different features and options to suit the ever changing needs of the user, from childhood through to adulthood. The Kiva bath is designed to help people get on with life.
